Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6 -7, 11-12, 31, 34, 36, 38-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Sephr et al USPN 6,650,921. Sephr shows various embodiments of inner and outer electrodes with a interlocking friction fit holding and a conductor there between. See figure 7. Figure 8 shows a stepped inner electrode 68. Each of the electrodes have an edge which could be used to strip insulation. Claim 11 seems to be a product by process claim.

Claims 1, 6, 7, 11, 34, 36, 38 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Nguyen et al USPN 6,006,123 or Scott USPN 5,005,587. For Scott see figure 2 coil conductor 24 outer electrode 14 and inner electrode (see metal indicating cross hatching) 49. For Nguyen, see figure 2 inner electrode 9 and outer electrode 11.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3766

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 8-10, 26-30, 32-33, 35, 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sephr et al USPN 6,650,921, Nguyen et al USPN 6,006,123 or Scott USPN 5,005,587. Applicant differs from the base references in reciting various conventional coatings and securing elements (welding, adhesives) all well known in the art and obvious for treating and connection electrodes.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3766

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
